## FIRE TRUCK SHOWS ITS POSSIBILITIES

Witnesses Enthusiastic Over  
Showing Make By  
Visiting Truck

### FIRE PREVENTION WEEK

Saturday evening the representatives of the Obenchain & Boyer Co., of Logansport, Ind., demonstrated the possibilities of a fire truck before a large and enthusiastic group of Antioch citizens. The attainments of this truck was a great surprise to those who witnessed the demonstration and many were the commendatory remarks passed on the achievements of this truck.

Fire Chief Christian, who has long been an advocate of a truck, was very much pleased with the attitude assumed by those who witnessed the demonstration Saturday night, and feels that any action the fire department might take will receive the wholehearted support of the villagers.

So enthusiastic were the witnesses of the possibilities of this truck that two or three of the spectators were heard to remark that they would gladly contribute to a fund for the purchasing of one of these trucks, one prominent business man of the north end of the town stating that he would be glad to contribute \$100, and another prominent hotel man of the lakes was heard to testify that he would gladly contribute a sum greatly in excess of the last named amount.

If Antioch is to have a fire truck, now is the time, as it would be a fitting contribution on Antioch's part toward its share of Fire Prevention week, October 9-15.

## A Proclamation

By the Governor of Illinois

October 9, 1921, will commemorate the fiftieth anniversary of the great Chicago fire. Out of that fire America was given a tragic object lesson in the price of carelessness. From a single act of carelessness in the use of a lantern while milking a cow was started a conflagration which consumed 16,950 buildings over area of 2,124 acres, wiping out \$208,000,000 in property and leaving 100,000 homeless.

Last year in this country more than \$500,000,000 in property was destroyed by fire, about twice the usual loss, while 16,000 persons are estimated to have lost their lives from fire or burns. In Illinois the loss exceeded \$20,000,000. Our fire losses are snapping our economic resources.

Carelessness and ignorance of common hazards are responsible for nearly 90 per cent of loss of life and property from fire. Because of the striking act of carelessness which kindled the conflagration, and the tremendous consequences which resulted, the date of the Chicago fire has come to be observed as Fire Prevention day, throughout the nation.

Therefore, because it is the fiftieth anniversary of the Chicago fire and in view of the unusual fire losses of last year, it is with a particular sense of appropriateness that I proclaim Sunday, the ninth day of October, 1921, as Fire Prevention day.

In keeping with the historic occasion, I urge that the week of October 9 be set aside as Fire Prevention week and that practical activities be held along these suggested lines:

That the entire week be marked by a cleaning up and disposal of rubbish from all premises, a careful examination and repairing of heating apparatus and flues, so that they will be safe for the winter; an inspection of electric wiring and correction of defects; and the removal of any other dangerous conditions which may cause fire.

During this week I also urge that fire drills be held in schools, factories and stores, and that they be continued at regular intervals.

That local authorities examine their fire ordinances and make them efficient if they are lacking in any particular.

The occasion is historic. Let it be commemorated in historic fashion, so that on this fiftieth anniversary the lesson of the conflagration may be brought back vividly and that all may dedicate themselves to habits of carefulness as regards fire.

LEN. SMALL

## Capture Three in Connection With Area Burglary

Three young men who claim Evanston, Ill., as their home were held to the Lake county grand jury at Waukegan on burglary charges in connection with the theft of \$1,100 worth of fine cigars and bonded whisky from the drug store of H. A. Watson, of Area, Saturday night.

Arrested by the Evanston police, they gave their names as John Schatz, 28, Jacob Steinbeck, 28, and Theo. Wahlgren, 23. When they parked Wahlgren's car at Evanston and went into a restaurant the police took a peep under some blankets in the car and discovered a large quantity of cigars and tobacco, several blankets, a hack saw and an iron bar sixteen inches long.

They were arraigned before Justice Harry Hoyt at Waukegan, who held them under \$4,000 bonds each.

The Watson store was robbed after 1:30 a. m., the proprietor working at the store until then. Entrance was gained by prying open a rear door. The cheaper brands of cigars were left untouched but the burglars cleaned up the better grades.

## High School to Publish Annual Year Book

The high school in Antioch is launching many new things this fall. One of the most important is a Year Book, as yet without a name.

A Year Book will mean much the same to the high school student, as a bound copy of the Antioch News for a year, would mean to a farmer resident of our city. In it will be a record of the scholastic life, the athletic life, the social life; in fact everything worth while that has happened during the school year. All of this will be very cleverly written up and illustrated.

Such an undertaking has been entrusted to the Junior class of the local high, who feel they are well fitted for the job. For their officers, they have chosen Gordon Ames as Editor-in-chief, George Keenan as Business Manager, and Elynore Dodge as Circulation Manager. These three, together with their assistants, will be responsible for the first edition of the Annual for Antioch Township High. Upon their success with the first book depends the success of all later ones. Encouragement to beginners is of greatest importance. Here's to you! Juniors.

## Woman's Club in Meet; Plan Village Improvements

Last year was the first year of the organization and many things were accomplished. For the coming year plans are being made to take an active part in civic improvements. The club is going ahead with plans to place paper receptacles around town.

A rest room for tourists and shoppers is another long needed improvement. The action on the part of the Woman's club in taking interest in this particular improvement is one in which they should be highly commended on and should receive the support of the entire town.

The club plans to hold its meetings this year through its members acting as hostesses. Last Monday Mrs. Boylen, Mrs. Grimm and Mrs. Warriner acted as hostesses.

The program laid out for the year will be one of entertainment and education.

## Cherry Tree in Full Bloom on Gurnee Farm

On the Frank Gorton place not far from the high school at Gurnee there blossomed out a cherry tree in full bloom last week. In fact, the tree was completely covered with blossoms and according to members of the family it never appeared in better form right in the midst of the season than it is right now.

This tree had apparently become dead as all well behaved trees are at this time of the year.

Imagine the surprise in the Gorton family, however, when they went into the yard and saw the tree covered with white blossoms.

The unusual freak of nature attracted considerable attention in and about Gurnee and many people even drove to the Gorton place just to take a look at the full-blossoming cherry tree.

## BOARD HEARS RUSSELL ON CEMENT ROAD

Superintendent of Highways  
Points Out State Requirements

### MAY START IN THE SPRING

The board of trustees held their regular meeting Tuesday evening. Alty Runyard was among those present and with him was County Superintendent of Roads Russell. Mr. Russell was asked to speak a few words on the cement road situation. He said: "The most authentic information I can get is that plans are all made out and it now lies with the different townships along the route to provide the right-of-way."

At the present time the only block in pushing ahead with the work is at Libertyville and the overhead bridge at Lake Villa.

Libertyville has a problem to solve inasmuch as the state highway commission has laid out a route that will avoid the grade crossing at Libertyville, turning to the left along the railroad to a viaduct under the St. Paul line.

This route carries the right of way through the property of a certain plant of Libertyville which is asking \$50,000 for right of way. The commercial association at present has been unable to overcome this particular obstacle. Information has leaked out that behind this obstacle is a selfish motive on the part of some of the citizens of that town, but that this will not stop the present proposed plans to start the highway.

The Lake Villa obstacle is another proposition that will prove troublesome, inasmuch as the expense of putting through a right of way to include the overhead bridge will lie with the county, and may prove to be to an expensive piece of work at this time.

Mr. Russell thought that the state highway commissioners might be prevailed upon to go ahead with the road, leaving the short atrips including the overhead bridge to a later date.

He then pointed out Antioch's problem. This includes the widening of the main street from a point a little south of the Channel lake road to the north end of the grade school grounds. This will necessitate the narrowing of the sidewalks in the business section three feet on each side and the grading of all sidewalks in town to a common level, making possible the rearrangement of some of the store fronts.

Mr. Russell further stated that the approach from Orchard avenue into the Main street will have to be widened as this will prove a very objectional approach to the main road and that the bend in the road at this point will have to be straightened out before the state highway commission will approve on this particular line, necessitating the widening of the road at the point of the News office. Mr. Russell adding with a smile that it would possibly mean the chopping off of the front end of the printing shop—we should worry!

The removal of the telegraph poles was another point he brought out and that was turned over to the committee on alleys to take care of. Attorney Runyard stated that the committee should not have much difficulty on this score.

At the conclusion of his remarks Mr. Russell was emphatic in his belief that the road could be started next spring and that the state highway commission could be prevailed upon to start at the state and work down.

While the discussion on alleys was taking place Mr. Russell made a suggestion that received very favorable comment from those who heard it, and it is a suggestion that should receive a serious consideration as Mr. Russell's experience as a city engineer qualifies him to bring out points of greatest advantage in town planning.

He stated that the proposed alley back of the Main street buildings should in reality be made a street, possibly of 35 foot width, to act as a kind of sub-main street, a street that will give the business houses along the Main street another entrance, a place for loading and unloading merchandise, and to act as a relief to the traffic on the main street. Here could be parked business vehicles and shopping cars without the

## Grass Lake Hunter Is Shot in Accident

"Fatty" Bruner, of Hubbard Woods, about 19 years old, accidentally shot himself in the right arm early Sunday morning at Grass Lake. Bruner was attempting to pull his boat toward him with his shot gun when the weapon was discharged. The charge mangled his right hand and tore away the flesh on the forearm.

Grass Lake was like a battlefield Sunday, there being hundreds of nimrods out after the wary ducks. A large number of ducks were killed. The hunters were so thick there were several near accidents. Axel Johnson, of Hubbard Woods, received two shots on the right cheek.

Considerable complaint is received that there are many "kid" hunters, some of them apparently too young to have any business with a gun or hunting license.

## October Milk at \$1.75; Spread of 10% for Sept.

Announcements were sent out from the Marketing Co. last week that the September spread would be ten per cent, and that the price for October milk would be \$1.75.

The affairs of the Marketing Co. seem to be taking on a brighter outlook this week and there is no doubt that if the members of association will give the directors a little more time to get their internal affairs in shape that this company will soon get down to real constructive work.

It is thought that the action of some of the members of the Milk Producers' associations were a little hasty in their withdrawal from the associations and it is thought that many of those who withdrew will re-consider their action and that the different locals will soon be re-constructed to their original strength and that the work of these organizations will soon be able to go ahead under full strength.

Most of the locals are fully realizing the folly of allowing its membership to get away and a campaign will soon be under way to show its members that in the lack of co-operation the farmer will be the only loser and that they will be playing into the hands of the condensers and large dealers of milk products.

The older members of the organization realize that the association is passing through a crisis that comes to every large organization and that absolutely nothing is to be gained by the disbanding of this organization but chaos and a damaging competition that will undoubtedly force the price of milk down to a prohibitive marketing price and force many farmers to withdraw from this business with the resultant loss.

The bulletin issued by the publicity committee of the Marketing Co. this week contains some very interesting facts in regard to the organization. Publicity on the part of the Marketing Co. is enlightening the farmers as to the achievements and business of the company has been sadly neglected, and the continuance of the bulletin will no doubt bring a more co-operative attitude on the part of its members.

### Poultry Culling Demonstration

A poultry culling demonstration was held at Mr. Harold Minto's of Antioch on Friday morning, Sept. thirtieth, by Mr. Wheelock, Lake County adviser for the purpose of showing the people how to pick out their best poultry. About forty people attended the meeting.

congestion that occurs on our Main street at certain days of the week.

This street would prove a wonderful investment alone at the time when the main street is being fixed, allowing people to do their shopping without great inconvenience. The Commercial association should act on this project immediately as it will require considerable work to put this plan through.

On a whole the meeting of the board was of a very constructive nature and much detail was gone into. Mr. Russell is to present a plan of the main street levels shortly at which time a special meeting of the board will be called and plans laid for carrying out the ideas for the improvement of the business section.

## No, Absolutely

Does the mail order house build your roof? Pay your taxes? Build your churches and school houses? Donate to picnics? Donate to public affairs at home of any nature? Do they help you in any way? NO, ABSOLUTELY.

Then why should you send them your hard earned money? Did I hear you whisper, "they sell cheaper." Yes, they do all right. They sell cheaper goods for the same money we sell goods for. If you think we are kidding, just come in and compare goods.—EXTRACTS FROM WILLIAMS BROS., AD IN THIS ISSUE.

## BAVORSTOCK TRAGEDY IS UNSOLVED

A message received here Saturday notified relatives of the murder of Mrs. John Bavorstock, formerly Mrs. Nellie Fornum, a sister of Mrs. Lenora Hughes, local telephone manager.

John Bavorstock was a formerly employed on the Howe farm two years ago and at that time was united in marriage to Miss Farnum, who was the local operator here, left after the wedding for Middleville, Michigan, locating on a farm there. Very little can be learned as to the condition in the murder case as Bavorstock is in a serious condition.

The information obtained from him at that time was that robbers had broken into the house and had killed his wife and attempted to kill him.

The first information received in this affair was that on Friday evening Bavorstock aroused a neighbor, informing him that his barn was on fire. Help was called to the Bavorstock farm and the fire was soon extinguished. After the fire was put under control a search of the house revealed the body of Mrs. Bavorstock in a cistern under the kitchen floor. Her body was wrapped in a blanket, saturated with kerosene. The house also was thoroughly saturated with kerosene.

After these discoveries a search was made for Bavorstock, who was found in a dying condition, his throat being cut twice, on the steps of the neighboring farm.

Later investigation brought out the theory that Bavorstock had committed the deeds himself, evidence showing that he had recently placed his affairs in the hands of an attorney and had taken out considerable insurance.

Bavorstock had financial difficulties and with a case of suastrock that he underwent last summer it is thought that he may have been mentally unbalanced.

Investigation of the entire affair is going on and authorities are hoping for Bavorstock's recovery sufficient to clear up the case.

## Auction Sales for October

The farm owned by Mark W. Curtis, located at Trevor, will be placed on auction on Wednesday, Oct. 11. The farm consists of twenty-seven head of live stock and much miscellaneous farm implements. Mr. Vogel will act as auctioneer.

An auction sale of interest to the surrounding community will be held at the Charles Miller farm at Bristol on Tuesday, Oct. 18. The sale will commence at 10:00 a. m., and lunch will be served. L. H. Freeman will be the auctioneer and J. E. Brook will act as clerk. Mr. Miller will have a wide variety of farm implements and cattle to offer.

The Hucker farm, consisting of 103 acres, will be sold at public auction on Wednesday, October 19. Sale on the premises, situated about one one-half miles southwest of Antioch. This farm is under a high state of cultivation, good soil, and very good improvements, well located, being only about one one-half miles from a good town, and in close range to several prominent lakes, the farm will be sold as a whole, or in parts to suit, on very liberal terms, which will be made known on day of sale. Any one wanting a high class farm, will do well to be there and bid on it. An inspection of the farm is invited before the sale, and further particulars can be had from the owner, Vida S. Mooney, at Antioch, of L. J. Sloeum, Wadsworth, Ill. Phone Antioch 168 W-1. Sale of personal property follows sale of farm.

## DESPLAINES PLAYS H. S. SATURDAY

First Game of Football Ever  
Attempted in  
Antioch

### LARGE CROWD EXPECTED

Antioch's High school football team will meet DesPlaines High school team Saturday afternoon at the local school grounds at 2 p. m.

The boys have shown a decided improvement since the Waukegan defeat and have been putting real football spirit into their practices this week, and are expecting to give the visitors a defeat.

As this is the first game of football ever played in Antioch the boys are expecting a large turnout to root for a victory.

Antioch's high school football team opened its season last Saturday at Waukegan where they were defeated 41 to 6.

It was the first game ever played by an Antioch football team and it was considered a success considering the fact that ten of the eleven players went into the fray without ever participating in a game before. The first quarter, which was twelve minutes, Waukegan scored 35 points before Antioch got any idea of a real football game. The second quarter Waukegan was able to score but once and during the last half were unable to penetrate the local defense, while Antioch was scoring its six points. The last quarter Antioch outplayed Waukegan in both offense and defense. Receiving the ball on a kickoff, marched down the field at a clip of five to seven yards each down, with Chinn, Haley and Ames doing the stellar work. Chinn scored the only touchdown with a nine-yard plunge through tackle. Herman missed goal.

Antioch again received the ball from the kickoff and started a march down the field for a second touchdown and were within twenty yards of goal when the final whistle blew. Chinn was the best ground gainer for Antioch, with Haley next best.

Antioch should be a much improved team by the next home game and local fans will witness a game equal to that put up by any high school team.

Coaches Wood and Chalcraft are patching up the weak points of the team uncovered in Saturday's game and are working hard to win the next battle.

The line-up for the game follows:

Waukegan	vs	Antioch
Pester	LE	Gray
Klemola	LT	Wolf
Plummer	LG	Nader
Kenyon	RG	Herman
Lichty	RT	Hooke
Owens	RE	Sheehan
Gustafson	RB	Wertz
Gilbert	RHB	Chinn
Bradbury	LHB	Ames
Unawitz	FB	Ames
Moore	QB	Haley

Referee: Hogan. Umpire, Qisley, Princeton. Time keepers, Horan and Nauman.

## A New School Being Built at District 31

The directors of district number thirty-one have bought one half acre of land to enlarge their school grounds.

The contract for the new school building was given to Mr. John Dupre of Antioch. Work was begun Monday, September twenty-sixth, for construction of the new building. The men of the district helped to dig the basement. The workmen are now putting in the foundation.

The school house is to be completed by December second.

## Sam Levinson to Play Violin at St. Ignatius

Next Sunday, Oct. 9, the Twentieth Sunday after Trinity, there will be special music at St. Ignatius' church, and Master Sam Levinson will accompany the hymns with his violin, besides rendering a solo at the offertory. Everyone is invited to be present at that time. Choir practices at 7:30 on Saturday evening.

**STRONG APPEAL MADE FOR HEALTHY CATTLE**

Poster Used in Tuberculosis Eradication Campaign.

Careful Experiments Have Demonstrated That Disease Cannot Be Detected to Any Great Extent by Physical Examinations.

(Prepared by the United States Department of Agriculture.)

Unlike most other infectious diseases, tuberculosis has an insidious way of working under cover, and oftentimes animals of the most healthy appearance are found to react to the tuberculin test, say veterinarians of the United States Department of Agriculture. No cattle owner can afford to live in doubt as to whether his animals are affected, they add. This point is brought out clearly in a two-colored poster published by the department, on which is shown two herds of dairy cattle. From all appearances the animals of both herds are healthy, but as a matter of fact those of one herd are afflicted with tuberculosis.

The poster also shows two children—one healthy, one diseased—and the point is brought out that tuberculous

Tubercular-Free Cattle.

animals may transmit the disease to children who drink the milk produced. The poster is a strong appeal for healthy cattle, and it is to be used extensively in the tuberculosis eradication campaign being carried on by the department.

Careful experiments in practical work have shown that tuberculosis cannot be detected to any great extent among animals by physical examinations. The most reliable method is the tuberculin test applied by a trained operator. Tuberculin, while regarded as the most accurate diagnostic agency known to science, is safe only in the hands of a trained and skillful operator who is acquainted with its limitations and with the symptoms it produces in the animals to which it is applied, the department veterinarians say.

**MANURE SHOWS GREAT VALUE**

Where Applied to Clover Fields It Increased Yield Threefold—Phosphorus Helps.

Due to the cool weather of the spring and the freeze which occurred early in the season, the Iowa agricultural experiment station has had an opportunity to show the value of common barnyard manure on clover. It has been found that where manure was added to the fields only once to the rotation the stand has been increased three times over the plots where no manure was used.

Eight tons per acre were added to the manured plots and here the leaf surface and root development are heavier and better. Where phosphorus was added at the same time as manure, plants are even more vigorous and have a greater height.

**CARE FOR LATE VEGETABLES**

To Store Late Products Nothing More Is Required Than Use of Existing Facilities.

The storing of late vegetables is often profitable for those who grow them in sufficient quantities for marketing, giving the grower the direct benefit of the winter price. To care for the surplus vegetables in many cases requires nothing more than the use of existing facilities in the form of a storage room in the basement of a dwelling or under an outbuilding or to build an outdoor cellar of wood or masonry. If permanent facilities are not available, late root crops can be kept in outdoor pits or banks, requiring no cash outlay except for labor.

**SHEEP GOOD AS SCAVENGERS**

Feed and Care Are Essential to Develop Flock for Mutton—Animals Keep Down Weeds.

Sheep possess great ability to renovate the soil, keep down all kinds of feed that would otherwise often be totally wasted, but the man who undertakes to develop a really profitable flock of mutton sheep must get away, as far as possible, from the idea that they are kept because of their ability as scavengers. He must like his sheep and plan to give them the most painstaking care and the best food that his farm affords. Unless he does this he is likely to have trouble.

**MICKIE SAYS—**

GET AGGRESSIVE!!!  
ADVERTISE! LET FOLKS KNOW  
YOU ARE ON EARTH! THE  
MEEK MUST GET THEIR REWARD  
IN THE HEREAFTER, FOR  
THEY SURE DONT GET IT  
HERE ON EARTH!!!

CHARLES SCHAEFER

**Red Cross Gives \$310,000 to Aid 'Clean-Up' Drive**

An appropriation of \$310,000 for Red Cross work in connection with the "clean-up" campaign instituted by the Government to bring the claims of all disabled service men who are entitled to Federal aid before the proper government bureau for action, has been made by the American Red Cross. The Executive Committee of the American Red Cross in making the appropriation authorized the appropriation of \$35,000 of this sum to the American Legion to defray the expense of the Legion representatives assigned to the various districts of the Veterans Bureau.

The remainder of the appropriation was authorized for apportionment among the several Divisions of the Red Cross for carrying on that part of the "clean-up" work that falls directly upon the Red Cross organization.

**Young America Sends Vast Relief To Needy Abroad**

Various relief projects of the Junior American Red Cross in European countries resulted in helping 237,000 destitute children during the last fiscal year, according to the annual report of the American Red Cross for that period. The growth of the activities of the Juniors abroad is manifested by a comparison which shows this figure is 200,000 larger than that of the previous fiscal year.

The National Children's Fund raised by school children, members of the Junior American Red Cross, was drawn upon for \$420,537 for these projects. Receipts for the National Children's Fund during the last fiscal year totaled \$155,317.

**America Succors Russians**

Food, clothing and medical relief costing \$700,000 has been provided by the American Red Cross for the thousands of Russian refugees stranded last year in Constantinople and vicinity.

**Rats Outwitted by Sawdust.**

Insulation by sawdust not only deadens sound, but also defeats rats. When a rat starts to construct a burrow through packed sawdust, the operation no doubt seems easy enough to begin with. But presently the sawdust begins to cave in, filling the hole as fast as the rat can dig, and in the end discouraging the animal completely.

**HIGHWAY NOTICE****Public Letting of Road Work**

Notice is hereby given that sealed proposals will be received by the undersigned officials of the town of Antioch, at the Town Hall in the Village of Antioch at 2:00 o'clock sharp p. m., Saturday, Oct. 15, 1921, for the graveling of the following road:

From the end of the gravel on the Bohrn road sec. 11 running north to Dunford corner in sec. 2. Said improvement shall consist of furnishing, delivering and spreading pit run gravel using three cubic yards per lineal rod of road.

Each bidder shall state in his proposal the name and location of pit from which he proposes to furnish gravel.

Right is reserved to increase or diminish the amount of work to be done to the extent of 20 per cent.

Each bidder shall tender with his bid for said road a certified check of Fifty Dollars (\$50.00) made payable to the town treasurer of the Town of Antioch.

As a guarantee that if awarded contract he will promptly enter into contract and file a good and sufficient bond. This work shall be done to the satisfaction of the County Superintendent of Highways and the Commissioner of Highways of the town of Antioch.

Dated at Antioch, Ill., this 28th day of September 1921.

Frank Dunn,  
Commissioner of Highways.  
C. F. Richards,  
Town Clerk.

STATE OF ILLINOIS ) ss  
COUNTY OF LAKE )

Circuit Court of Lake County.

December term A. D. 1921.

Fay Thumma vs. Marion L. Thumma.  
In Chancery No. 11570.

The requisite affidavit having been filed in the office of the Clerk of said Court.

Notice is therefore hereby given to the said Marion L. Thumma, defendant as aforesaid that the above named Complainant heretofore filed her Bill of Complaint in said Court on the Chancery side thereof, and that a summons thereupon issued out of said Court against the above named defendant, returnable on the first day of the term of the Circuit Court of Lake County, to be held at the Court House in Waukegan in said Lake County, on the First Monday of December A. D. 1921, as is by law required, and which suit is still pending.

Lewis O. Brockway,  
Clerk.  
Waukegan, Ill., Sept. 26, A. D. 1921.  
Otis S. Gooch,  
Highland Park, Ill.  
Complainant's Solicitor.

**Real Length of Day.**

How long is a day? Twenty-four hours, you say. Yes, but not quite. One real day contains 24 hours, 56 minutes and 4.09 seconds of time, as reckoned by the movement of the sun. The earth moves through space with an average velocity of eighteen and one-half miles per second, and its velocity of rotation at the equator is about 1,000 miles per hour.

BURLINGTON, WISCONSIN

## BIG CROWD AT WILMOT FAIR

When the little group of teachers of the Wilmot high school, consisting of Miss Hnpe, Miss Bernice Kortendick, Miss Ermine Carey, Miss Esther Kasper and Miss Opal Kabele met Prin. R. S. Ihlenfeldt and County Agent B. Wood about a year ago, little did they realize that their plans for a small community fair for the school at that time would develop in one year into the largest community school fair in the state and accommodate more exhibits than many of the county fairs.

Yet this is exactly what happened and the first exhibit of the incorporated West Kenosha County Fair association at Wilmot last Friday and Saturday exceeded the fondest expectations of the men and women who have worked hard for the past month to make it a success. Weather conditions were very favorable and a very careful estimate showed there were 25,000 people present Friday and over 3,000 on Saturday.

The spacious Wilmot high school grounds were filled to overflowing with exhibits and stands of all kinds, while the grain, vegetable and fruit exhibits as well as the fancy work exhibits were in the school building.

The Salem band furnished excellent music both days. Other amusements were the baby show, stands, side shows, etc. The Great Medical dispensary, a one act comedy which was given in one of the tents, proved to be a big attraction. The high school boys entered into their part enthusiastically and furnished splendid entertainment for the audience.

The program was so arranged that the big drawing card for the first day was the parade, demonstrations in poultry dressing by C. W. Hockings, of Burlington; while the talks by Attorney General Morgan, of Madison, Judge Randall, of Kenosha, and Supt. J. J. Kerwin, of Silverlake, drew the attendance of thousands on the second day.

Then too, the sale put on by the Shorthorn Breeders' of Racine and Kenosha counties proved to be an excellent drawing card and the fact that the calves sold at an average of approximately \$150 was most gratifying.

The parade was a splendid feature. It was lead by Arthur Panknin, mounted on the prize saddle pony, next came the Wright band, of Salem; the agricultural float by the primary grades of Wilmot. It featured the queen of agriculture, the farmer, his products, and little children dressed to represent the various tradesmen who are fed by the farmer. It was drawn by a black team in white harness, preceded and followed by footmen in black and white.

Other cars and floats were tastefully decorated to carry out various ideas and while the task of the judges was a hard one they awarded prizes to Wilmot primary, Carey Electric Light & Milling Co., F. A. Kruckman, juniors, seniors, Silverlake, Bassett, Sambo the Barber and the freshmen.

Features that attracted a great deal of interest were the athletic events under the direction of Messrs Barber, of Silverlake, Sherman and Reynolds, of Wilmot, and the baby show. Mrs. Tremper, of Kenosha, judged the babies and an interesting talk was given to the mothers by Miss Jamison.

Another feature worthy of mention was the splendid dinner served both days by the ladies.

Large crowds attended the two dances and Saturday night the registered bull donated by Wm. Voss was awarded to Herman Fiegall.

The talk by Attorney General Morgan was an able and appropriate one for the occasion. He dwelt upon the importance of a thorough home training as preparatory to successful school work. He said, "There are three books I should wish to see in every American home, the Bible, a copy of the United States and state constitution and the Declaration of Independence. There are also three pictures whose presence lead toward better American citizenship, those of Washington, Lincoln and Roosevelt. Such days as Lincoln's birthday, Memorial Day, July 4, and Armistice Day should never be unobserved in the home." His talk teemed with the spirit of true American patriotism.

The following served as judges: Cattle, Prof. Collentine, Madison; hogs, Prof. McKay, Madison; fruits, grains and vegetables, Prof. A. J. Wojta, Madison; sheep, A. McKerrow, Pewaukee; educational exhibits, Prof. A. J. Smith, Miss Worsley, Union Grove; club work, E. A. Polley, Rochester; woman's department, Mrs. Tremper, Kenosha.

The success of the fair was due largely to the able leadership of various board members. Wm. Luke, president, proved his ability along fair lines and his efforts together with those of R. S. Ihlenfeldt, principal of Wilmot high school, R. T. But-ton, of Silverlake, and Geo. T. Dean,

## The American Road Patrol

### National Crop Improvement Service

Many plans are being discussed to solve the problem of employment for our returned soldiers. No plan has yet been devised which will take care of any considerable number of them.

It is unfortunate that so many of our country boys have decided that they are going to stay in the cities, and there should be some concerted action to get them back to their home towns.

One of the best ideas is to include them in the road building program which has already begun. A large number of them can be utilized in building the roads and, if each county would recall its partially disabled veterans and give them the job of road maintenance, another large number could be used in this manner.

In the old country, every few miles, there will be seen a road patrol. It is equipped with light machinery for dragging and surfacing, but its most important function is to put wet gravel into every depression after every rain. It may be argued that gravel roads

are not permanent, but the best hard-surfaced roads are those which are built on a good gravel road foundation, one which has been properly graded and drained. This gravelling should be done on every road and when the time comes to build the concrete, one of the largest items will have been disposed of.

When the concrete highways are constructed, all of the feeder roads should be given this personal attention by a road patrol, so that every farmer, who has not the good fortune to be located upon one of the trunk lines, may have a good road to that trunk line every day in the year.

It has been conceded that the reinforced concrete highway makes the best road. The growing use of trucks makes it imperative that our highways be built for the future, and a still greater percentage of solidity must be built into them to take care of the trucks which will become more and more numerous on every well-paved stretch.

of Bassett, went far toward making the fair the success that it was.

Then the able leadership of C. Dyson, J. Toelle, J. A. Shulke and A. Winn helped decidedly in systematically arranging the grounds, while Wm. Voss superintendent of hog department, John Van Liers, superintendent of the poultry department and Lewis Rhodes, superintendent of the cattle department, carried out their end of the work in such a way that satisfaction was found on every

hand.

Before finishing the work of the fair, a round table discussion took place in which the board members, together with the various people interested in the West Kenosha County Fair association, pledged to do their bit in making the fair of 1922 bigger and better than the one just held. It was decided to hold a fair two days and two nights next year, with all exercises on the grounds rather than evening exercises at the hall.

## We Call Your Attention

to the fact that the Carbon Lubricant is doing just what the maker guarantees it will do. Come in and get a can before they are all gone.

We also have a dressing for your fan belts and brake bands which will make old bands act like new. Good for belts on tractors—keeps them from slipping.

## BUILD IT NOW

### If You Need That House BUILD IT NOW

Your first peace-time work is the building of that new house you had to go without while the war was on.

Both labor and materials are available once more and a great deal of government building, state work and factory construction already is under way. Measure the amount of satisfaction and service your new home would bring and you'll want to get started at once.

The sensible thing then is to BUILD NOW and we have all the material to build the sensible way—framing, siding, trim, shingles, doors and floor boards—the manufactured lumber, knottless and crackless—for the walls and ceilings. Speak to us about it today.

## Local and Personal Happenings

Chas. Lux, Jr., is enjoying a month's vacation, visiting in the west.

Rev. Pollock is in Chicago this week attending the Rock River conference.

Mr. and Mrs. H. A. Rudke returned this week from their northern trip.

A new warehouse is being erected at the Antioch Lumber and Coal company yards.

Monday the Antioch Woman's club held their first meeting for the coming year.

Mr. Charles Miller of Bristol has sold his farm and has bought the Tobin farm at Antioch.

Mr. J. Baber and family entertained twenty Chicago relatives and friends over Sunday.

Mr. and Mrs. R. J. Snowhook of Kenosha were week-end visitors of Mr. and Mrs. Oliver Hoyer.

The Jones house of the Harrison Jones estate was sold this week to a family from Salem, Wis.

Harlow Barber has returned home after spending a month with relatives at Chicago and Geneva, Ill.

Mr. and Mrs. Paul Viezens are in attendance at the fiftieth anniversary of the Masonic order in Chicago this week.

Mrs. Albert Dibble and family visited in Antioch this week. They being on their way south of Chicago to live Mr. Dibble is now employed.

Come to the football game next Saturday at the high school grounds. Des Plaines' high school will be the attraction. Game called at 2 o'clock.

The children of the primary department of the Methodist Sunday School were given a party Saturday afternoon in the church basement. In honor of the graduating class and it is needless to say the little folks had a good time.

"Gene" Runyard, Antioch's popular legal advisor, has again stepped into the limelight. Gene has been appointed master of chancery by Judge C. C. Edwards for a regular term of two years. This position was formerly held by Attorney Martin C. Decker.

The little son of Charley Vykruks, while riding his tricycle the first of the week had the misfortune to fall injuring his right arm in such a manner that it was necessary to take him to a hospital.

Earl Wedge, who has been under treatment at an Elgin sanitarium for a number of years, from an ailment caused through an accident, is home. Mr. Wedge is reported as looking fine and is under the care of an attendant.

People who have been helped by Tanlac are always willing to tell others about it. S. H. Reeves.

Card party and dance will be given at the Woodman hall, Thursday evening, Oct. 13. Music by Gelstrup and Reed.

**Trees Strong.**  
Trees and plants display a wonderful strength at times. Some of them will lift a heavy stone which blocks their way or even split a rock, but there is one thing which they cannot withstand and that is the strangling hold of another plant which enfeebles them. A honeysuckle will soon kill a tree which it takes hold of and in the tropical forests there are many creepers which kill the trees they climb and save themselves by reaching out to neighboring trees.

**Gliding Can Be Brightened Easily.**  
A mixture that is said to clean gliding in made of one quart of water, two ounces of purified lime, one ounce of alum, and one ounce of common salt. When dissolved, brush the gliding with a camel-hair brush soaked in the mixture. To revive gliding this restorer is recommended. Beat up well one ounce of chloride of potash or soda with three ounces of whites of eggs.—Popular Science Monthly.

## NEWS BRIEFS OF INTEREST TO COMMUNITY

Business in the Grayslake police court has died down to such an extent that the speed cop has acquired a motorcycle.

Last Friday eight ten-gallon cans of small bass arrived in the village and were planted in Druce Lake. The fish came from a hatchery near La Crosse, Wis., and were brought there through the efforts of Ned Pratt, who owns a great portion of the lake.

Nine Italians, the majority of them of Chicago, but who were visiting friends at Roundout, were poisoned last Sunday by eating toadstools which they mistook for mushrooms. Dr. Taylor of Libertyville was summoned. By the prompt and efficient use of the stomach pump he succeeded in saving the lives of the victims but they all had a close call.

Jack Durand, known as the "bad boy of Lake Bluff" foster son of Mr. and Mrs. Scott Durand, millionaire residents of Crab Tree farm, was freed last week from the Lake county jail at Waukegan on charges that he had stolen \$1,500 worth of fine liquor from the Durand cellar and sold them at Fox Lake, following which he caused the arrest of his foster father by making a statement to State's Attorney Smith that the latter had transported liquor from the Grant hotel, Chicago, to their Lake Bluff home last spring.

The 6th Area Corps now stationed at Ft. Sheridan has been ordered to Chicago, and will be stationed at 1819 west 39th street. In all probability they will move next week. Five troops of the 14th Cavalry from Ft. Des Moines Iowa, and the second Infantry from Camp Perry, Ohio, will be stationed at Ft. Sheridan.

From figures now available, Northwestern University, Evanston, registration for the season, 1921-22 will exceed last year's which went slightly beyond 9,000.

Madison, Wis.—The largest single check ever received by the state has come to the office of Henry Johnson, state treasurer. It called for payment of \$1,254,397.19 as half of the tax against the Chicago & Northwestern railway.

The Wisconsin apple crop will fall far short of that produced last year, when 3,650,000 bushels were grown, Joseph A. Becker, crop reporter, announces. Production is now estimated 2,980,000 bushels, an increase of 100,000 over the estimate on August, but still nearly 1,000,000 short of the five-year average of 3,000,000 bushels.

Green Bay road, north of the Rockland road, as far as Five Points, is now open, according to Charles E. Russell, superintendent of highways of Lake county. It will be open as far as Belvidere road within a week. Belvidere road from Milwaukee avenue west to Volo is paved, and open for travel. Work of improvement is now under way on the Lakes road from Wauconda to Volo. Also work has been started on about one and one-half miles from Barrington north. This closes three roads for through traffic.

As the result of an election just held, O. L. Stanley of Waukegan, becomes head of all the labor organizations of Lake county. It is doubtful if such an honor ever before has been held one man.

It has not taken much of an argument to convince the Grayslake people that Libertyville is not ready for a modern cement road. Therefore, the Grayslake boosters are getting the right of way north from the Plank road so that the survey can be made and bids advertised for this fall and winter. In its stubbornness Libertyville might find that it will be a long time before it will have a cement road north of that borg. —Grayslake Times.

Indianapolis, Ind.—Lewis S. Pitcher of Brooklyn, N. Y., was elected commander in chief of the Grand Army of the Republic at the fifty-fifth annual encampment. He succeeds William A. Ketchum of Indianapolis. Robert W. McBride of Indianapolis was elected senior vice commander by acclamation. Clifford C. Ireland of Peoria, was elected commander in chief of the Sons of Veterans.

Highest salaries paid Illinois school teachers since the war have been given in Lake county, according to reports from seventy county school superintendents received by Francis G. Blair, state superintendent of public instruction.

The war department has settled with practically all the property owners whose land adjoining the Great Lakes naval training station was seized during the war for the purpose of enlarging the station.

Mrs. A. J. Olson, wife of the former senator political leader, has disposed of her home at Woodstock and will move to Chicago to make her future home. Mrs. Olson disposed of the farm following the death of her husband in 1916, but continued in handling the affairs of the milk industry established by her husband. In carrying on the business, however, Chicago is the logical center rather than Woodstock, hence her decision to move to Chicago, the Olson home before the state senator became resident of Woodstock in 1906. —Harvard Herald.

At the Chicago grand handicap trap shoot at Lincoln Park traps, Sunday, Frank Stanton, of Long Lake, won the handicap with 97 out of a 100 at 21 yards. Charles Armea of Waukegan, was second, with 94 out of 100 at 18 yards. Jay Graham of Ingleside, professional, broke 95 at 23 yards.

A week ago last Saturday morning at St. Joseph's church, the marriage of Miss Lola Renehan, third daughter of Mrs. Nellie Renehan and Raymond Minech of Chicago, was solemnized by the Rev. Father Berger. A wedding breakfast was served at the bride's home to about thirty guests. Mr. and Mrs. Minech returned to the city in the afternoon, followed by the good wishes of hosts of friends, to whom they are both well known, having been former residents of our vicinity.

Wise Man Conserves Strength.  
To comprehend a man's life it is necessary to know not merely what he does, but also what he purposely leaves undone. There is a limit to the work that can be got out of a human body or brain and he is a wise man who wastes no energy on pursuits for which he is not fitted, who from among the things he can do well, chooses and resolutely follows the best.—W. E. Gladstone.

Oratory of Small Importance.  
Just Franklin says oratory seems to have a backset, because a man who has eloquence and magnetism can make more money out of some kind of salesmanship.

### Clara Kimball Young in "Mid-Channel" at Crystal

There will be a mingling of tears and laughter, finished off with a surprise of a lifetime at the showing of "Mid-channel".

Clara Kimball Young's latest and greatest picture, which comes to the Crystal theatre on Saturday. Knowing that "Mid-channel" is the greatest play on modern married life that the world's foremost dramatist, Sir Arthur Wing Pinero, has ever written, and that this masterpiece aroused such a sensation when it was first published, because of the startling revelations it made, it is easy to explain the tremendous popularity that this production will have, especially when Clara Kimball Young, responsible for many of the screen's greatest achievements, excels her own best effort, if that is possible, in the difficult role of Zoe Blundell, the abused and neglected wife of Theodore.

### EXPENSES INCREASE SAYS ILLINOIS BELL TELEPHONE COMPANY

Answering Commerce Commission's Citation To Show Cause Why Rates Should Not Be Reduced

Operating expenses of the Illinois Bell Telephone Company have increased since the public utilities commission authorized an increase in rates last December, was the answer filed by the telephone company to the citation of the Illinois Commerce Commission to show cause why the rates should not be reduced.

In another part of the answer the company questioned the method of procedure adopted by the commission in issuing this citation and asks that the citation be dismissed, but stated that it will co-operate with the commission in any proper proceeding brought under the Illinois law.

The answer said that the present rates, effective January 1, 1921, were authorized and approved as just and reasonable by the public utilities commission December 20, 1920, after an eighteen months' investigation conducted by the commission and that its order has never been reversed and still stands. It also was explained in the answer that the company had filed with the commission monthly reports of revenue and expenses since January 1, 1921, when the present rates became effective.

## RURAL NEWS

## LAKE VILLA

Mr. and Mrs. Frank Daube and daughters spent Sunday in Chicago.

C. R. Thoro is putting up three more cottages on his Cedar Lake property.

Carl Miller and Clarence spent from Friday till Monday with friends in Chicago.

Mr. and Mrs. Ben Summers of Waukegan visited the Albert Kapke family Sunday.

Rev. and Mrs. Adams of Cherry Valley, Ill., are guests at the parsonage this week.

Rev. McCloskey went to Chicago on Wednesday morning to attend Rock River conference.

Mr. and Mrs. Hussey had as guests over Sunday, Mr. Hussey's two brothers from Chicago.

A son was born to Mr. and Mrs. Bert Simpson, who live in the rear of the postoffice, one day last week.

Matt Dixon is again clerking for E. J. Murrie in the store and Mr. and Mrs. Howard have returned to Gurnee.

Mr. and Mrs. James Leonard had as guests over Sunday, their son John and wife of Lake Forest and relatives from Chicago.

Mr. and Mrs. Will Davies, who have occupied a cottage on Cedar Lake all summer, returned Sunday afternoon to their home in Chicago.

Mr. and Mrs. Phillips of the Cedar Crest farm moved on Tuesday to Lake Forest where they have accepted a position on the Cudeby estate.

The E. J. Lehmann family have moved back to the city for the winter but Mr. and Mrs. Lehmann expect to spend most of this month at their home here.

Mrs. Richards and son, Lee of Litchfield, Ill., near St. Louis, came last week by auto and spent the week with Mr. and Mrs. Herbert Nelson. They visited at Zion City Sunday.

Mr. and Mrs. Frank Nadr moved their household goods and family Saturday to their new home recently purchased and Mr. and Mrs. Douglas left the same day for their future home in Peoria. We wish them success.

Mr. and Mrs. Lood have gone to the city to spend the winter with their son John and wife. Mr. Cannon's garage assistant, Mr. White and wife will occupy the Lund cottage and their goods were sent out the first of the week.

Archie Gibson suffered a stroke of paralysis last week and is unable to be about. He was taken to the Lake County Hospital for treatment Saturday. Mr. and Mrs. Geo. Helm had cared for him till then. His many friends here hope for his recovery.

On Friday evening, Oct. 14, a harvest home social will be held at the church and whatever of fruit, vegetables or groceries that you can spare will be thankfully received for Lake Bluff orphanage. A good social time with lunch is planned for you and we hope that you can come.

The Angola (Lake Villa) Cemetery society will give a supper at H. Potter's this week Friday evening. No charge will be made but a collection will be taken. More food is necessary and fencing and driveway to be provided for, so this supper is to help defray the expenses. The society needs your help and co-operation. Come.

Frank T. Fowler will hold an auction next Saturday, Oct. 15, to which he will dispose of a number of building lots.

few months that her family and friends had hoped for better health, but she became suddenly worse and passed away in two days. She was married to Carl Miller about twelve years ago, and one son Clarence, survives besides her husband, two sisters, one brother and her father who lives in California. Her entire married life has been spent here and she was a member of the Royal Neighbors here. The funeral was held at the church on Friday afternoon, Rev. McCloskey conducting the service and the Eastern Star, of which she was a past matron, conducted the services at the cemetery. We extend our sympathy to the bereaved family.

Chicago Girl Weds  
At Ingleside, Ill.

One of the prettiest weddings of Ingleside occurred on Saturday morning, Sept. 17th, when Winifred Flinerty and James Murrio, both of Chicago, were united in holy matrimony at St. Mary's church. The Reverend Father Lynch of Antioch officiated. Those in attendance to the bridal couple were Miss Olive Flinerty, sister

of the bride, Mr. Joseph Murrio, brother of the groom and Mr. Frank Flinerty, the bride's brother, who gave her away.

The brides gown was a canton and georgette crepe combination with a touch of silver lace. The bridesmaid wore an orchid canton crepe with ostrich trimming.

Mr. and Mrs. Leonard Sweeney, tenor soloists and organist of Our Lady of Mercy church of Chicago rendered selections.

The wedding breakfast was served at the summer home of the bride's mother, Mrs. Rose Flinerty.

Farm Fire Losses  
\$20,000,000 a Year

Are you going to be one of the 38,266 families that suffer each year from loss by fire?

You should protect your home with a chemical fire extinguisher always ready and will not freeze. \$10 will insure you with a Fire Gun chemical extinguisher. Best possible fire insurance. Secretary of Agriculture Wallace issued a proclamation this week to all farmers to take necessary precaution against fire. Make yours by buying a Fire Gun chemical extinguisher from
